A 26650 Li-ion battery is a cylindrical rechargeable battery with a diameter of 26mm and a length of 65mm. This battery type is widely used in ...

With a standard size of 26mm in diameter and 65mm in length, it surpasses the 18650 and 21700 cells in both runtime and energy storage, making it ideal for industrial applications, high-drain power tools, ...

Overview Nominal Voltage: 3.2 V Capacity: 3.8 Ah Energy: 12.2 Wh Max Continuous Discharge: 15 A Features Long runtime for medical and backup power Reliable at steady, moderate current Long ...

We provide LiFePO₄ 26650 cylindrical battery cells and CELL-BMS-PACK Integrated services for the world. Choose 26650 LiFePO₄ Batteries for Any ...

Explore 26650 rechargeable batteries with flat top design. Perfect for flashlights, headlamps, and various equipment. Find your ideal capacity today.

The 26650 battery offers unmatched performance with high energy density, long cycle life, and robust thermal stability. Its versatility supports ...

Whether the application requires outstanding cycle life or stable float reliability, the Lithium Werks" 26650 cells are suitable for a wide variety of power, pulse, or stand-by applications.

26650 lithium batteries are most effectively used in applications that require high energy storage and discharge capabilities. These batteries find common use in high-drain devices like power ...
