---

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

With rising electricity prices and climate targets, Sweden is pouring EUR220 million into renewable energy incentives until 2030. Mobile solar containers - compact, plug-and-play systems - now qualify for ...

Power your school with Sunchees solar systems. Explore 10kW-50kW off-grid and hybrid solutions for educational institutions worldwide. Fast delivery and global support.

The solar facades are built with well-proven, low-weight mounting systems, making their installation both easy and rapid, while ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery bank, ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4? x 8? palletized enclosure. All energy systems are equipped with a ...
