Future import levels hinge on the outcome of a new US investigation into the alleged illegal import of crystalline solar cells and panels from Vietnam, Thailand, Malaysia and Cambodia.

In August 2025, the U.S. Court of International Trade (CIT) ruled that President Joe Biden's 2022 tariff pause on imported solar panels was illegal, ...

EIA projects that PV's growth in 2023 (27 GWac) and 2024 (36 GWac) will continue in 2025 (39 GWac) and remain at similar levels in 2026 (36 GWac). In 2024, 24 states and territories ...

NLR conducts detailed supply chain analysis for specific photovoltaic module technologies. These analyses include production locations, supply chain risk and costs, and material ...

Here, we apply a supply chain optimization model to perform scenario analysis of the PV supply chain development through 2021-2030 considering various European economic and job creation...

Because diversification is one of the key strategies for reducing supply chain risks, the report assesses the opportunities and challenges of developing ...

Subsidized mass production of Chinese solar panels drove down the global price and drove nearly all of the first generation of U.S. and European solar panel makers out of business.

as observed in the EU's trade data, tariff-jumping was less pronounced for the European market (Figure 4). This was due to a significant slowdown in solar PV installations in Europe between 2014 and ...

A Withhold Release Order (WRO) was issued in June 2021 against shipments containing material produced from silica-based products made by the ...

Analysis of foreign trade photovoltaic panel order opening situation

This study has significant theoretical and practical implications, since it not only broadens awareness and focus on trade frictions but also provides a scientific basis for policymakers.
