The global solar power market size was valued at USD 253.69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436.36 billion by 2032, ...

Data released by China's National Energy Administration last year revealed that the country's solar electricity generation capacity grew ...

By the time the generation born today reaches adulthood in 2020 solar energy could easily provide energy to over a billion people globally and provide 2.3 million full-time jobs.

Find up-to-date statistics and facts on the global solar photovoltaic industry.

(Bloomberg) -- China's solar power generation overtook wind for the first time last year as a boom in cheap panels continues to reshape the country's grid and climate trajectory. ...

OverviewPerformanceDescriptionFossil fuel consumptionEconomic impactEnvironmental impactsIn popular cultureExternal linksContracted power-delivery performance of 640 GWh/year from Units 1 and 3 and 336 GWh from Unit 2 was met by 2017, following sharply reduced production in the first few years of operation, particularly in the start-up year of 2014. In November 2014, the Associated Press reported that the facility was producing only "about half of its expected annual output". The California Energy Commission issued a statement blaming this ...

Photovoltaic (PV) solar accounted for 56% of all new electricity-generating capacity additions in the first half of 2025, remaining the dominant form of new electricity-generating ...

In 2024, renewables helped avoid USD 467 billion in fossil fuel costs, reinforcing their role in enhancing energy security, economic resilience, and long-term affordability.

In our STEO forecast, utility-scale solar is the fastest-growing source of electricity generation in the United

Billions of Solar Power Generation

States, increasing from 290 BkWh in 2025 to 424 BkWh by 2027.

Alphabet Inc. (Google) has entered a definitive agreement to acquire Intersect Power, a California-based developer of utility-scale solar and battery energy storage systems.
