For Bhutan, long-term energy security means meeting winter demands when our hydropower generation ebbs to the lowest.

The policy aims to strengthen hydropower while accelerating solar and other renewable resources, improving energy efficiency and enhancing grid flexibility through modernization and storage.

The Electricity Regulatory Authority is pleased to announce the approved Tariff Determination Regulation 2025 which was amended in accordance with the Electricity Act of Bhutan 2001, National ...

While continuing to honour hydropower, the policy moves decisively toward renewable diversification, energy security, climate resilience, and ...
