---

Estonia has delivered its largest heat storage facility, begun construction on its largest solar-plus-storage hybrid project, and is preparing to break ground on an 800 MWh battery park in ...

Estonia is building the largest battery park in continental Europe, boosting energy security and supporting the transition to renewables.

Estonia's Tartu Energy Storage Power Station exemplifies how battery storage systems stabilize grids overwhelmed by solar and wind energy. With 47% of Estonia's electricity now coming from ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

From today, Estonia's energy security is significantly stronger. With Hertz 1, our electricity system has gained resilience comparable to adding a major new power plant.

By leveraging our international expertise in engineering, grid integration and battery system operations, we are proud to contribute to strengthening Estonia's energy resilience and to ...

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a ...

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere ...

But here's the kicker - it's not just about energy storage. This project pioneers vehicle-to-grid (V2G) integration with Tallinn's electric bus fleet, creating what engineers call a 'bi-directional power ...
