The world's first true Solar Hybrid air conditioner allows you to convert the sun's energy through Photovoltaic panels into DC power that is fed directly into the DC side of the Gree Inverter.

The Chinese manufacturer said its new photovoltaic air conditioner is available in three versions with a cooling capacity ranging from 12.1 kW to 16 ...

The new Gree Solar Hybrid Inverter technology allows you to harness the natural and free energy from the sun to help you run your Gree Hi ...

This solar-powered car window cooler operates without draining your vehicle's power supply, using sunlight to generate electricity for its fan. It keeps your car ventilated, creating a more ...

Harnessing solar energy as the primary power source, the photovoltaic direct-driven inverter multi VRF unit employs advanced ternary commutation technology, ...

Chinese air conditioner manufacturer Gree Electric Appliances has launched a photovoltaic DC air conditioner for residential and commercial ...

The hybrid solar-powered air conditioner is a mixed solar AC/DC air conditioner, which can run on both DC and AC at same time seamlessly. It can be ...

The Gree Photovoltaic Direct-driven Inverter Multi VRF System breaks through tradition, innovatively combining photovoltaic power generation with the power ...

GMV5 Solar system is an environmental friendly HVAC solution. The system uses DC inverter technology to improve compression efficiency.
