Battery energy storage systems (BESS) are increasingly being considered by water and wastewater utilities to capture the full energy potential of onsite distributed energy resources (DERs) and achieve ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

Start with expert collaboration. Our team has been delivering successful onsite energy solutions for over 65 years. Let's work together to build a BESS that meets your unique needs.

Parker Hannifin provided the 12-kilovolt-to-480-volt transformer and 2 megawatt (MW) inverter system for the microgrid. Casey Butler at Parker was particularly helpful in the design, implementation, and ...

This project upgraded a wastewater treatment plant to use a microgrid with a solar photovoltaic system, energy storage, and a microgrid controller for increased resiliency and to ...
