This FCAB End of Year Report provides an updated status of the domestic lithium-ion battery industry, its supply chain, technology advancements, and progress toward the National Blueprint Goals.

Crowd-sourced from top industry and academia experts, this report seeks to provide a comprehensive and accessible overview of the latest battery research, ...

Recognizing the need for a comprehensive analysis of this rapidly evolving industry, CAS and Deloitte have worked together to develop this in-depth report covering both market and scientific perspectives.

Report summary This report analyzes the increasing demand of lithium-ion battery in electric vehicles and energy stationary storage systems and forecasts global supply from 2024 out to ...

Download Lumafield's Battery Quality Report on 18650 lithium-ion cells: CT-based metrics, defect rates, and supplier guidance to reduce risk.

This study provides a detailed characterization of gaseous and particulate emissions from Lithium-ion batteries (36V 12Ah) containing 50 cylindrical cells subjected to thermal runaway via overcharging.

The global market for Lithium-ion batteries is expanding rapidly. We take a closer look at new value chain solutions that can help meet the growing ...

Executive Summary This report was written to explore the growing number of fires caused by lithium-ion batteries (LIBs) in the waste management process.

The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the shift to ...

The North America lithium-ion battery market size was estimated at USD 14.8 billion in 2023 and projected to

Lithium ion battery report

grow at a CAGR of 20.9% from 2024 to 2030.
