DIY SOLAR Battery Banks - Parallel? Series? Both??: What, Why & HOW!

Selecting The Solar Panels
Selecting A Fuse For The Solar Panels
Wiring The System
Calculating The Voltage Drop
Adding The Charge Controller
Selecting Charge Wire and Fuse
Cost
Next, we will wire the solar panels to the existing system. As you can see on the schematic, the two solar panels are wired in series. That means that the negative of the first panel is connected to the positive of the second panel. If we do that, we will have one positive and one negative wire. After we have attached the 10A MC4 fuse, we can put b...
