Stelco, a public utility company in the Maldives, has kicked off a tender for several renewable energy projects. The first project involves solar ...

The project marks the largest solar panel installation in the Maldives by a single contractor to date - which will generate 5MW solar power per day.

Small scale storage is already being experienced in smaller islands under POISED Project (Public sector investment), ranging from 50 - 300 kWh, and RE penetration of 15-50%

In the evolving landscape of renewable energy, 5MWh battery compartments housed within robust energy containers have emerged as a transformative solution for solar ...

The Project involves the development of 36 MW solar power project and 50 MWh of battery energy storage solutions across various selected islands in the Maldives.

Solar PV panels installed at Gan International Airport will generate enough renewable energy to meet the airport's consumption requirements. As a ...

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the ...

The ARISE Project features various sub-projects involving solar PV of various technologies, grid upgrades, Battery Energy Storage Systems (BESS), etc. Each sub-project is procured through an ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...
