---

Develop a framework for dynamic formation of networked microgrids for optimized operations under both normal and emergency conditions. This project.

A rural hospital in Washington State is building resilience one project at a time -- turning funding setbacks into a blueprint for community-scale energy ...

On the Big Island of Hawaii, an innovative microgrid has been installed with a singular mission to return the land to its native state, covered in sandalwood forest. Energy management controls for behind ...

The Community Microgrid Initiative is designed to achieve Community Microgrid demonstration projects that prove that local renewables connected to the ...

GIG is a leader in creating control and optimization solutions and demonstrating these solutions in real-world vehicle-grid and microgrid applications that reveal ...

The work began in 2008 as a project to install a high-efficiency, 100% renewable energy-powered, single-building microgrid. Since then, the project has expanded into an installation-wide ...

Microgrid Initiatives was established as Microgrid Institute 2013 to chart pathways toward a more sustainable and resilient future with advanced microgrids and distributed energy resources.

Microgrid demonstration and implementation is a major focus for the California Energy Commission and has been supported by funds administered by the commission under the Electric Program ...

Three microgrids are being built, each with increasing capability and complexity, which will function as permanent energy systems at Department of Defense ...

# Microgrid Demonstration Project Organization

This pilot demonstration project was hosted by EPRI to demonstrate how the SPIDER testbed can be used to validate microgrid controls and to showcase New Sun Road's AI-based controls.
