Canadian renewable power producer Boralex Inc (TSE:BLX) and Six Nations of the Grand River Development Corporation (SNGRDC) said on Friday they had commissioned a 300-MW/1,200-MWh ...

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite ...

In June 2024, a 100-megawatt-hour sodium-ion energy storage project began operation in Hubei province, representing the first large-scale commercial use of sodium-ion energy storage globally.

Last December, China's first 100-megawatt all-vanadium redox flow battery energy storage station in a cold region began operation in northeast China's Jilin, expected to consume 300 ...

As China accelerates the shift toward renewable energy and builds a new type of power system, energy storage has become indispensable.

At an event in Las Vegas on the margins of the RE+ renewable energy convention, Tesla unveiled its latest generation of large-scale energy ...

The GSL is an energy storage research and testing facility that will accelerate development of next-generation grid energy storage technologies ...

China's new-type energy storage market witnessed a strong start in January 2026. Newly commissioned capacity in January increased by over 60% year-on-year, while the market's ...

EVE Energy's 400MWh storage station with 628Ah cells is grid-connected, marking a milestone. A 10GWh strategic order with Guowang Technology solidifies large battery technology's ...

New Energy Large Energy Storage Station

Tesla's Megapack is officially making its mark on China's energy landscape. The groundbreaking RMB 4 billion grid-scale storage project in Shanghai's Lin-gang Special Area, ...
