As part of its efforts to scale renewable energy, stabilise its grid and reduce carbon emissions, Cape Verde has inaugurated the expanded Cabeolica ...

Announced earlier this week (8 December), AFC and Cabeolica have officially opened the Cabeolica Wind Farm and Battery Energy Storage ...

Our certified energy specialists provide round-the-clock monitoring and support for all installed home energy storage systems. From the initial consultation to ongoing maintenance, we ensure that your ...

This expansion covers five facilities across four islands, combining new wind capacity on Santiago with battery storage systems on Santiago, Sal, Boa Vista, and S#227;o Vicente.

Delta launches a new battery cabinet for C& I use, Solarwatt unveils a modular backup-capable system, Exide presents a scalable 20-foot container unit, and AlphaESS advances safety with the TB125.

Cape Verde is moving toward a cleaner energy future by expanding its wind capacity by 13.5 megawatts and adding 26 megawatt-hours of grid-connected battery storage..

Cabo Verde boosts renewable energy to 30% with wind farm expansion, battery storage, and international funding, targeting 100% by 2040.

The project marks a significant milestone as Cabo Verde's first large-scale renewable energy initiative to combine wind power generation with battery energy storage systems (BESS).

The project consists in the design and construction of a set of inter-related electricity generation, network and storage components during the 2024-2030 period under Cape Verde-s ...

New energy storage systems in Cape Verde

This increase, according to Prime Minister Ulisses Correia e Silva, will help achieve the government's goal of more than 50% of electricity ...
