Mon Power and Potomac Edison Select Maidsville, West Virginia, Site for New Natural Gas Power Plant Approval of new gas and solar generation proposed in Integrated Resource Plan ...

U.S. power plant developers and operators plan to add 86 gigawatts (GW) of new utility-scale electric generating capacity to the U.S. power grid in 2026 in our latest Preliminary Monthly ...

Not long ago, people called wind, solar and batteries " alternative energy." That old moniker has now lost its meaning: In 2024, the U.S. power ...

Almost 70 gigawatts (GW) of new solar generating capacity projects are scheduled to come online in 2026 and 2027, which represents a 49% increase in U.S. solar operating capacity ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada. It was slated to close in 2026, but that decision has been reversed by the California Public Utilities Commission. The facility derives its name from its proximity to Ivanpah, California, which lies within the Mojave National Preserve

Wind, nuclear, hydro, and solar together account for more than one-third of capacity. 468,582 MW of new generation capacity is under development in the United States, which is comparable to the total ...

The U.S. Energy Information Agency expects growth in U.S. power generation over the next two years to be mostly driven by new solar plants, it ...

Below, you can find resources and information on the basics of solar radiation, photovoltaic and concentrating solar-thermal power technologies, electrical grid systems integration, and the non ...

New power generation from solar power station

In our latest Short-Term Energy Outlook (STEO), we expect that U.S. renewable capacity additions--especially solar--will continue to drive the growth of U.S. power generation over the next ...
