The EV ARC(TM) by Beam Global delivers solar-powered EV charging wherever you need it--no construction, no utility costs. It's freedom from the grid, built for speed, sustainability, and resilience.

Unlike traditional solar containers, Solarfold(TM) can be quickly retracted during severe weather and offers better mobility and efficiency. Our technology represents the next generation in mobile solar power ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

solarcont has developed a mobile solar container that stores and unrolls foldable photovoltaic panels for portable green energy anywhere.

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings ...

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, ...
