With a total installed capacity of 79,882 kilowatt-peak (kWp), the plant generates 120 million kilowatt-hours (kWh) of electricity annually. The ...

YESS Power was in charge of the engineering, procurement, installation, commissioning and technical services for the project. It used battery technology from Chinese company Cubenergy. ...

There are 59 photovoltaic projects in the roster, for 3.01 GW altogether and EUR 2.11 billion. The plan contains seven wind power plants of 907.7 MW and for EUR 1.18 billion, ...

FEC Novaci Solar + 60 MW Energy Storage System. At YESS Power, we are proud to launch our first large-scale project in Europe. Located in North Macedonia, this project stands out as the largest ...

Turkey-based company YESS Power has successfully commissioned the Balkans' first large-scale, grid-scale battery energy storage system (BESS), integrating it directly with the Novaci ...

North Macedonia's 2026 plan includes 67 power plant projects of at least 1 MW each, for investments totaling an estimated EUR 3.74 billion, and 96 acceptable proposals for standalone and co-located ...

YESS Power, together with China-based Cubenergy and under the investment of Mey Energy, is building a 60 MW battery energy storage system ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and ...

The continued growth of solar power and the development of storage capabilities will play a decisive role in securing North Macedonia's energy independence and promoting a sustainable ...

North Macedonia solar Energy Storage System Project

China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, installation, and ...
