-----

Companies such as CTG, Casa dos Ventos and Unimed received authorization to begin operations with solar and wind energy in five Brazilian states, signaling a new stage in the ...

We specialize in electric power containers, photovoltaic containers, mobile power stations, outdoor site energy systems, backup power, clean energy, photovoltaic projects, solar products, solar industry ...

With a planned installed capacity of 500 megawatts, the facility is expected to generate an average of 831 million kilowatt-hours of clean electricity ...

The 100-MW CSP project, featuring 12 hours of molten salt energy storage, uses the tower molten salt energy storage CSP technology independently developed by Cosin Solar Technology Co., Ltd. which ...

A growing number of local governments are restricting or outright blocking large-scale wind and solar projects.

Solar and wind farms increasingly pair with industrial-scale lithium storage to smooth power output. A recent project in Chile's Atacama Desert uses 800MWh lithium batteries to stabilize solar energy ...

The Praia grid-side energy storage project solves real-world problems while pushing the \$33 billion global energy storage industry into new territory [1]. This Portuguese marvel isn't just ...

Located in the Santa Cruz district in Rio de Janeiro's West Zone, the project--whose construction is already underway --consists of installing a 5-megawatt (MW) solar power plant on ...

Praia solar project is an operating solar farm in Praia, Cabo Verde.

Wind and solar power generated more than a third of Brazil's electricity in August. This marks the first time these renewable sources have ...
