---

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

UC San Diego is partnering with Redoxblox to demonstrate a 10 MWh thermochemical energy storage system, providing 24+ hours of emergency power and carbon-free cooling for ...

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year ...

SDG& E has been rapidly expanding its battery energy storage and microgrid portfolio. We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility-owned energy storage ...

San Diego Gas & Electric (SDG& E) today announced the start of construction of the Clairemont Microgrid, one of four such projects based at its existing substations. Each microgrid is ...

When energy demand is high, the stored water is released downhill to turn turbines that produce energy. The Water Authority and City of San Diego are evaluating ...

Located at SDG& E substations in Escondido and El Cajon, the Advancion energy storage arrays will provide 37.5 MW of power and serve as a 75 MW flexible resource to the grid. ...

BESS can reduce energy costs and provide backup electricity during power outages. BESS can store solar and wind power and deliver it when ...

Arevon is building an energy storage project in the Barrio Logan community of San Diego to support local energy reliability and maximize the use ...
