InteliNeo 6000 is a controller for managing and optimising on-grid and off-grid hybrid microgrid systems. The controller features real-time monitoring ...

Our microgrid solutions are designed to provide reliable, secure, and sustainable power to remote or off-grid communities, industrial sites, and other critical facilities.

Smart MicroGrids (SMGs) can be seen as a promising option when it comes to addressing the urgent need for sustainable transition in electric systems from the current fossil fuel-based centralised ...

[#6 MKI Webinar Series]Discussing the latest advancement and benefits of smart microgrids for the future of sustainable power and their recent deployment in ...

To reduce the operational cost of isolated microgrids, we present holistic real-time scheduling algorithms for both local generators and controllable loads in individual homes even when there exists ...

Learn about our U.S. mobile microgrid tour, and find a live demonstration near you. SEL powerMAX microgrid control systems keep the lights on, seamlessly ...

Microgrids provide resilience, sustainability, and efficient energy solutions by leveraging onsite renewable generation with smart grid resources for better connectivity, decarbonization, and access ...

About Smart residential microgrid project with Simulink, OpenDSS, ESP32, and live dashboarding.

You can choose a campus or create an entire island for your microgrid solution -- it's adaptable to virtually any local requirement and can withstand even harsh environments.

Industry leaders SEIA (Solar Energy Industries Association) and SEPA (Smart Electric Power Alliance) produce RE+ Microgrids. All proceeds from the event go right back into the industry.
