Our microgrid solutions are designed to provide reliable, secure, and sustainable power to remote or off-grid communities, industrial sites, and other critical facilities.

YunicosEatonGreen Energy CorpNRG EnergyEnSync EnergySpiraePowerSecureAmerescoSchneider ElectricEngieEnSync Energy is a company that specialises in delivering intelligent energy management solutions that enable customers to integrate renewable energy sources and energy storage systems. Their Microgrid-as-a-Service (MaaS) offering includes financing, design, and installation of microgrids for various applications, including residential, commercial,...See more on [datacentremagazine](#)

MoreMicrogrids provide resilience, sustainability, and efficient energy solutions by leveraging onsite
renewable generation with smart grid resources for better connectivity, decarbonization, and access ...

```

We offer a full suite of smart grid and microgrid services -- from early advisory and feasibility studies through to system design, procurement, implementation, commissioning and lifecycle support.

Our integrated grid and microgrid services enable network operators and their customers to optimise connected Distributed Energy Resources (DERs) through ...

Turnkey microgrid control solutions include electrical system protection, cybersecurity, real-time controls, integration with existing infrastructure, and more.

Smart MicroGrids (SMGs) can be seen as a promising option when it comes to addressing the urgent need for sustainable transition in electric systems from the current fossil fuel-based centralised ...

Smart Microgrid Services

As dedicated microgrid experts, we offer "plug and play" smart microgrid systems for businesses and homes. We also specialise in bespoke microgrids design ...

Dedicated to providing customers with intelligent water treatment solutions and services; using advanced technology and products, digital technology means, innovative management mode ...

We work with you to design and deliver a comprehensive microgrid solution that meets your needs. First, we create an energy twin simulation to give you a clear overview of your entire microgrid project.
