Worried villagers say their "rural paradise" is being destroyed by Britain's green energy rollout after plans for a vast, nearby solar farm were approved.

Solar-energy users of a village now can sell their excess electricity to the national grid.

Its two main modes, rooftop solar panels and village-level solar power stations, have been vigorously promoted by the state. The large-scale deployment of solar panels will inevitably ...

In Modhera, no one pays for electricity any more. Instead, villagers look at their electricity bills every month to see how much money they've earned from selling solar-generated electricity to ...

When I visited Rwanda with The World Bank in 2015, I learned about rural solar PV systems - paid off on a daily basis, with IoT monitoring.

These stories show how solar isn't just a rooftop trend--it's a quiet revolution at the grassroots. Whether it's cooking dinner, running a loom, or ...

Raipur Village Continues To Be In Dark Even After Solar Power Replaces Electric Supply In Melghat Forest
The villagers wait for days on end for a ray of hope from the solar panel and drops ...

At the Solar Village Project, we believe every community deserves access to clean, reliable energy. Together, we can transform lives, protect the ...

We currently import, assemble, distribute and service four key solar products: lights, irrigation pumps, e-cookers and batteries. These products are sold through a network of independent ...

Across India, changemakers are using solar power to bring light, safety, and hope to remote villages. Here are seven stories of people lighting up lives with the sun.
