Materials Materials is an international peer-reviewed, open access journal on materials science and engineering published semimonthly online by MDPI.

Browse all issues published in the journal.

The "Materials Physics" section provides a forum for the rapid publication of original works that significantly advance our current understanding of materials or unveil novel aspects of the physical ...

It covers all aspects of materials science and engineering including synthesis, structure, mechanical, chemical, electronic, magnetic, and optical properties, as well as their various applications. In ...

Materials, Volume 18 (2025) Vol. 18, Iss. 1 January-1 2025 214 articles Table of Contents Vol. 18, Iss. 2 January-2 2025 255 articles

Materials requires that authors publish all experimental controls and make full datasets available where possible (see the guidelines on Supplementary Materials and references to unpublished data).

Catalytic Materials 512 Articles Prof. Dr. Steven L. Suib Topical Collections (1) Current Special Issues (18)

Materials is covered by the following databases and archives: Indexing & Abstracting Services ADS (Astrophysics Data System)/SciX (Science Explorer) BibCnrs CABI Digital Library CAPlus / SciFinder ...

Keywords: sustainability; asphalt materials; concrete materials; pavement materials; construction; mixed design; performance evaluation; damage mechanism; features characterization; durability (This ...

Interests: retrofitting buildings; sustainable construction materials; new advanced materials for upgrading of existing masonry and wood historic constructions; structural analysis and retrofitting of historic ...
