Once established, the Windhoek Solar Centre will operate as an independent information and knowledge hub, aimed at promoting and adopting solar energy technologies throughout Windhoek.

The 25MW Solar PV project has several benefits for the city. It will diversify the electricity supply and reduce the dependence on NamPower, the national electricity supplier.

Within this context, today's launch of this 25 megawatt solar plant is a concrete step moving Namibia towards the fulfilment of the noble goal of decarbonisation.

Longstanding plans by the City of Windhoek to construct its own photovoltaic (PV) solar power plant are back on the drawing board with the city now exploring the possibility of setting up a ...

Windhoek solar farm by Jacques | Jul 1, 2025 A solar renewable energy project with a capacity of 25 MW. Located in Windhoek, Khomas Region, Namibia. Current status: announced.

Windhoek solar farm is an announced solar photovoltaic (PV) farm in Windhoek, Khomas Region, Namibia.

Windhoek Cimbebasia Solar PV Park is a 25MW solar PV power project. It is planned in Khomas, Namibia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

The City of Windhoek has confirmed to Network Media Hub that its planned megawatt solar PV project has been delayed for nearly two years, with the procurement process still under ...

In the advert, the city seeks a qualified and self-financing partner to construct, commission and maintain an inclusive integrated 25MW solar power station for Windhoek using the ...
